OFFICE ACTION

Election/Restriction

1. Claims 1-20 are pending in this application.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

(I) Claims 3-20, drawn to a method for forming a semiconductor device [class 438, subclass 7];

(II) Claims 1 and 2, drawn to an optical processing apparatus [class 369, subclass 116].

2. Inventions I and II are related as process for its practice and apparatus. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. See MPEP § 806.05(e).

In this case: (Group II compared to Group I) the optical processing apparatus reveals totally different compared to the method for forming a semiconductor device.

3. Applicant is advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement is traversed (37CFR 1.143).
